

GLAST SCIENCE WORKING GROUP

BLAZAR SCIENCE IN THE GLAST ERA

Goal:

Determine strategies for optimizing the scientific return from GLAST (primarily the Large Area Telescope) in the study of blazars and other AGN.

Outline:

Gamma rays and blazars - Hartman, Dermer,
Dingus

GLAST blazar capabilities - Ritz

GLAST and multi-wavelength observations -
Wagner, Maraschi, Madejski, Sambruna,
Krawczynski
